A Mountain Paradise in Summer and Winter

Jeseníky

This project is co-funded
by the European Union.

The Olomouc Region

Czech Republic

Get to Know the Jeseníky Mountains. Welcome!

The Jeseníky Mountains and their foothills are a mountain paradise with many historic treasures and technical monuments. In every season you can choose a trail which will suit both your physical condition and your interests.

The tourism area of the Jeseníky is formed by the Hrubý Jeseník mountains and their foothills, the Rychlebské mountains, Králický Sněžník and the Nízký (Lower) Jeseník mountains, so one can enjoy travelling from peak to peak, enjoying splendid views and trails through picturesque valleys.

Winter sports complexes offer enthusiasts a wide spectrum of possibilities, as many as in summer, and all offer a number of additional entertainment activities. In the Jeseníky you will find hundreds of well-marked trails, for hiking and for cycling. You can go to Rejvíz to the largest peat bog in Moravia, to Praděd for the highest mountain in Moravia, to the nature preserve Šerák – Keprník, the oldest in Moravia, or to the nature reserve Velká kotlina (The Great Basin), which is considered the country's best, all in the Jeseníky.

And those who like sight-seeing will discover a number of historical monuments, whether they be the local castles, chateaux, museums or the interiors of wooden churches. You can see the greatest wonders of the Czech Republic, the Dlouhá Strána electric plant, and a handmade paper factory. But that is not all – you can go to Šumperk and go on a fairy-tale tour from the 13th to the 21st centuries, and we have not yet mentioned the relaxation possibilities of the Jeseníky spas, the witch-hunting trials in Velké Losiny, the festivals, nor the number of events on offer, including tasting the famous Hanušovice beer.

Welcome and Enjoy!

A Pristine Natural Setting

The rugged and romantic natural setting of the Jeseníky will captivate you at first sight. Here you will discover a protected natural area, natural parks and nature preserves in which you will find a number of rare species of flora and fauna. Discover the enchanting mountains with their gorgeous views of the valleys, deep woods, crystal streams and waterfalls. There are instructional nature trails throughout the area. Underground treasures await you in the oldest historically-mentioned caves in Central Europe, the caves at Na Špičáku which are handi-capped-accessible. Also of mention are the Na Pomezí caves, one of the largest cave systems in the Czech Republic, formed of marble. The Jeseníky are simply a natural paradise, whether in summer or winter.

Admiration and Awe

When you say Jeseníky, skiing and hiking come to mind. But one should not forget the picturesque mountain towns and villages which offer unusual experiences. You can find a number of castles, chateaux and wooden churches in the Jeseníky. The region is rich in romantic ruins found deep in the woods, which you can get to via marked hiking trails. And here too are old buildings with rich interiors and collections. No one can fail to be amazed at the sights, whether they be the largest collection of pipes and smoking utensils in the country at the chateau in Jánký Vrch /3/, the preserved chateau interiors in Velké Losiny /2/ and Bruntál /4/, or the extensive collection of hunting trophies in the chateau in Úsov /1/. Truly places of beauty, admiration and awe.
